## FOUR REASONS WHY

*You are honouring  
your life journey*

In choosing to document this chapter of your life, you are acknowledging its significance. There is immense power in choosing where to place your focus. Your family session is a declaration of love.

*You become closer  
as a family*

A family session is more than the nice photos or the videos captured. As you feel the camera fixed on you, your time spent together can become an emotional journey. It forces a kind of introspection: *This is real. This is us.* When you may be more used to running on autopilot, it can turn your attention back to each other.

*Document the  
milestones over time*

You are always growing and evolving. Our beloved fur babies have such a short time with us, and our little ones will grow and develop their own sense of self before we know it. These sessions give you beautiful mementos so you can document your family's milestones and savour those moments.

*You have beautiful photos  
and videos to cherish*

Your family's bond deserves to be celebrated and valued - display your favourite moments as a reminder of these connections.

**Bringing a child into this world is an  
incredible adventure.**

You might be feeling a sense of uncertainty in  
the future, mixed with a newfound awe and  
appreciation for your body as it mysteriously  
creates new life all on its own.

## PHOTOS AT HOME

---

*Ideal for families with younger children and pets*

**Your home is the perfect location to document this precious milestone in your family's life.**

Your home holds a collection of your favourite things. A place that is **authentically yours** - this sacred safe space will form the backdrop to your child's very first memories.

An at-home session means you have **everything you need** to make sure both baby and mama are comfortable. You can include your **fur baby companions** without having to travel with them. You can incorporate sentimental items, access your wardrobe, and document baby's nursery. It won't be long before you're swapping the cot and stuffed toys for a bed and desk! Younger children are also **more confident** in a familiar place.

These photos will become **keepsakes** for your children to treasure.

**PET PORTRAITS ONLY AVAILABLE WITH AT-HOME SESSIONS.**
